1 **PLAINTIFFS' RESPONSE IN OPPOSITION TO DEFENDANT GOOGLE LLC'S**
 2 **MOTION FOR LEAVE FOR RECONSIDERATION OF ORDER DENYING MOTION**
 3 **FOR DECERTIFICATION**

4 Google's Motion for Leave for Reconsideration of the Court's August 1, 2018 Order Denying
 5 Defendant Google LLC's Motion to Decertify Collective Action should be denied. The issue of
 6 decertification was extensively briefed by the parties in May and June of 2018, and was the subject
 7 of an hour-long hearing before Judge Freeman on July 12. *See* Google's Mot. to Decertify Collective
 8 Action (Dkt. #252); Pls.' Decert. Opp'n (Dkt. #258), Google's Decert. Reply (Dkt. #303); Minute
 9 Entry (July 12, 2018) (Dkt. #304). The Court carefully considered the evidence and legal arguments
 10 presented by both parties, and issued a well-reasoned Order that spanned almost thirty pages in
 11 length. *See* Order (Aug. 1, 2018) (Dkt. #337). Google now seeks leave to challenge this Order,
 12 arguing that there are new material facts, and that the Court failed to consider material facts or
 13 dispositive legal arguments that were presented to the Court before its Order. L.R. 7-9(b)(2)-(3).
 14 Google attempts (unsuccessfully) to manufacture "new material facts" in its motion by
 15 misrepresenting the evidence and findings presented by Dr. David Neumark in his July 19, 2018
 16 expert report—findings that are consistent with discrimination. Further, Google's argument that the
 17 Court failed to consider certain material facts and dispositive legal arguments during the July 12,
 18 2018 hearing and its August 1, 2018 Order is inaccurate and unsupported by the record. Each "new"
 19 fact and legal argument raised by Google in its motion was carefully considered, and rejected, by the
 20 Court. Google fails to meet the requirements for leave to seek reconsideration under L.R. 7-9, and
 its motion should be denied.

21 I. **LEGAL STANDARD**

22 "Motions for reconsideration are disfavored and should be granted only in rare
 23 circumstances." *Gossett v. Stewart*, No. CV 08-2120, 2009 U.S. Dist. LEXIS 116743, at *1-2 (D.
 24 Ariz. Dec. 14, 2009); *Am. Rivers v. NOAA Fisheries*, No. CV-04-00061, 2006 U.S. Dist. LEXIS
 25 48195, at *8 (D. Or. July 14, 2006) ("Motions for reconsideration -- under Rule 54(b) ... are
 26 generally disfavored"). As such, a party seeking reconsideration of an interlocutory order under Fed.
 27 R. Civ. P. 54 must first obtain leave of court before filing its motion, *see* L.R. 7-9(a), and the decision
 28 to grant leave "is committed to the ... sound discretion" of the court. *Heredia v. Eddie Bauer LLC*,

1 No. 16-cv-06236-BLF, 2018 U.S. Dist. LEXIS 40314, at *3 (N.D. Cal. Mar. 9, 2018) (citing
2 *Montebueno Mktg. v. Del Monte Corp.-USA*, 570 F. App'x 675, 676 (9th Cir. 2014)). The party
3 seeking leave must satisfy Local Rule 7-9(b), which requires not only “reasonable diligence in
4 bringing the motion” but also (1) “a material difference in fact or law … from that which was
5 presented to the Court …; (2) [t]he emergence of new material facts or a change of law occurring
6 after the time of such order; or (3) [a] manifest failure by the Court to consider material facts or
7 dispositive legal arguments which were presented to the Court before such interlocutory order.” L.R.
8 7-9(b)(1)-(3).

II. ARGUMENT

10 Google invokes the second and third grounds of L.R. 7-9(b) in seeking leave to move for
11 reconsideration. But Google’s motion is untimely, and should be denied on both grounds as no new
12 material facts have emerged following the Court’s interlocutory order, and the facts and legal
13 arguments raised by Google in its motion for leave were properly considered and rejected by the
14 court in denying Google’s motion for decertification.

A. Google Has Failed To Demonstrate Reasonable Diligence in Seeking Leave.

16 A party seeking leave to file a motion for reconsideration “must specifically show reasonable
17 diligence in bringing the motion.” L.R. 7-9(b). Here, Google waited 37 days from the Court’s Order
18 denying decertification, over seven weeks after the service of Dr. Neumark’s report, and just two
19 weeks prior to the close of discovery to file its motion. *See* Order (Aug. 1, 2018) (Dkt. #337);
20 Neumark July Rpt. (Dkt. #355-4); Order at 2 (Feb. 20, 2018) (Dkt. #246). Because Google was not
21 diligent in bringing its motion, the motion is untimely and should be denied. *See York v. Bank of*
22 *Am.*, No. 14-cv-02471-RS, 2016 U.S. Dist. LEXIS 166888, at *3-4 (N.D. Cal. Dec. 2, 2016) (holding
23 that a 35-day delay failed to show “reasonable diligence” and rendered motion for leave deficient);
24 *Largan Precision Co. v. Genius Elec. Optical Co.*, No. 13-cv-02502-JD, 2015 U.S. Dist. LEXIS
25 58911, at *4 (N.D. Cal. May 4, 2015) (“waiting more than four weeks to file a motion for
26 reconsideration” did not constitute ““reasonable diligence in bringing the motion””). As the Court is
27 aware, Plaintiffs’ summary judgment opposition is due in just four weeks, and Google’s motion is
28 yet another dilatory tactic designed to divert Plaintiffs’ time and resources from focusing on this

1 upcoming deadline and other pressing matters, such as Google's refusal to produce its own expert
 2 for a deposition prior to the discovery cut-off date and the deadline for Plaintiffs' summary judgment
 3 opposition. *See* Joint Letter Br. at 6 (Dkt. #347); *Devries v. Experian Info. Sols., Inc.*, No. 16-cv-
 4 02953-WHO, 2017 U.S. Dist. LEXIS 84255, at *5 (N.D. Cal. June 1, 2017) (holding 47-day delay
 5 unreasonable given certain "deadlines were fast approaching" in case).

6 **B. Dr. Neumark's July 19, 2018 Expert Report Presents No "New Material Facts" Warranting the Requested Leave.**

7 In his March 5, 2018 report, Dr. Neumark determined that [REDACTED] of candidates age 40
 8 and older who interviewed on-site at Google receive offers, compared to [REDACTED] of candidates under
 9 40—a difference of [REDACTED] standard deviations. Neumark Mar. Rpt. Tbl. 8, ¶¶ 7, 36 (Dkt. #355-2). As
 10 the Court noted in denying decertification, this is evidence of discrimination, as "[t]wo standard
 11 deviations is normally enough to show that it is extremely unlikely (that is, there is less than a 5%
 12 probability) that the disparity is due to chance, giving rise to a reasonable inference that the hiring
 13 was not [age]-neutral." *See* Order at 22 (Aug. 1, 2018) (Dkt. #337) (quoting *Adams v. Ameritech
 14 Servs., Inc.*, 231 F.3d 414, 424 (7th Cir. 2000)); *Palmer v. Shultz*, 815 F.2d 84, 96 (D.C. Cir. 1987)
 15 (noting that a disparity of "1.96 standard deviations" would be sufficient "for a court to establish an
 16 inference of disparate treatment on the basis of this evidence alone."); *Castaneda v. Partida*, 430
 17 U.S. 482, 496 & n.17 (1977) ("proof ... enough to establish a prima facie case of discrimination"
 18 where the demographic difference of "two or three standard deviations" existed).

19 In his merits report in July, Dr. Neumark conducted further analyses that provide additional
 20 nuance that strengthened his initial findings. For example, consistent with Plaintiffs' theory
 21 regarding Google's interview process, he found that older applicants [REDACTED]
 22 than younger applicants, and that [REDACTED], older applicants received job
 23 offers [REDACTED]. Neumark July Rpt. ¶¶ 9-10 (Dkt. #355-4); *see also id.* ¶¶ 14-18 (discussing
 24 finding of statistically significant difference [REDACTED]
 25 [REDACTED]). This analysis confirms that older applicants [REDACTED]
 26 face two statistically significant hurdles in securing a job offer from Google: they are [REDACTED]
 27 [REDACTED], [REDACTED]

1 positions to older applicants [REDACTED] Dr. Neumark summarizes these analyses in
 2 his July report:
 3 [REDACTED]
 4 [REDACTED]
 5 [REDACTED]
 6 [REDACTED]
 7 [REDACTED]
 8 [REDACTED]
 9 [REDACTED]

10 *Id.* ¶ 14.

11 In addition, in his initial report, Dr. Neumark determined that the [REDACTED] a candidate
 12 had, [REDACTED] that candidate was to receive an offer from Google. Neumark Mar. Rpt. Tbls. 12-
 13 ¶¶ 8-9, 52, 57-58 (Dkt. #355-2). However, there were some limitations with [REDACTED]
 14 available to Dr. Neumark at the time of his initial report. Neumark July Rpt. ¶ 19 (Dkt. #355-4). He
 15 subsequently [REDACTED], which he was able to incorporate
 16 into his July report. *Id.* With this [REDACTED]
 17 [REDACTED] Dr. Neumark found a [REDACTED]. *Id.* ¶ 21.
 18 When controlling for [REDACTED], Dr.
 19 Neumark found that [REDACTED]
 20 [REDACTED]).” *Id.* (emphasis in original). But the [REDACTED]
 21 standard deviations, while significant, [REDACTED]
 22 [REDACTED] *Id.* ¶ 10 (“[REDACTED]
 23 [REDACTED]). Dr. Neumark further
 24 observed that [REDACTED]
 25 [REDACTED]
 26 [REDACTED].” *Id.* ¶ 22 (p. 8) & n. 14. Dr. Neumark
 27 therefore conducted additional analyses to correct [REDACTED],” and,
 28 in each instance, found “[REDACTED]

1 [REDACTED]
 2 [REDACTED] .” *Id.* ¶ 22 (p.8). Ultimately, Dr. Neumark’s findings
 3 “[REDACTED]
 4 [REDACTED] ” and did “[REDACTED]” reached in his March 5, 2018 report.
 5 *Id.* ¶¶ 8, 41; Neumark Mar. Rpt. ¶ 7 (Dkt. #355-2) (finding [REDACTED]
 6 [REDACTED]).

7 In its motion for leave for reconsideration, Google raises two flawed arguments in support of
 8 its contention that new material facts have emerged in Dr. Neumark’s July report that warrant
 9 reconsideration of the Court’s decertification order. But Google’s arguments misrepresent the
 10 evidence and conclusions presented in Dr. Neumark’s report and should therefore be rejected.

11 First, Google incorrectly argues that the estimated difference in job offer rates by Google for
 12 younger vs. older candidates [REDACTED] standard deviations in Dr. Neumark’s March report
 13 to [REDACTED] standard deviations in his July report. Google’s Mot. at 2-3 (Dkt. #355). But as explained,
 14 that is not the case. The [REDACTED] standard deviation figure was simply a [REDACTED] of one aspect
 15 of Google’s discrimination, and because it [REDACTED]
 16 [REDACTED] and several other
 17 variables, this result [REDACTED]. Neumark July Rpt. ¶¶ 10, 21, ¶ 22 (p. 8)
 18 (Dkt. #355-4). And even with this [REDACTED], Dr. Neumark’s findings remain statistically
 19 significant, reflect discrimination, and thus strengthen Dr. Neumark’s conclusions. *See id.* ¶¶ 8-10,
 20 14-22, 41; Order at 22 (Aug. 1, 2018) (Dkt. #337) (quoting *Adams*, 231 F.3d at 424).

21 Moreover, other analyses in Dr. Neumark’s July report found an [REDACTED]
 22 [REDACTED] in job offer rates. Specifically, when controlling for additional variables such as [REDACTED]
 23 [REDACTED], Dr. Neumark found disparities in offer rates between
 24 younger and older applicants of [REDACTED] standard deviations. *See* Neumark July Rpt. ¶ 6 (Dkt. #355-4)
 25 (adding aforementioned controls [REDACTED]
 26 [REDACTED]
 27 [REDACTED]).
 28

1 Relying on its own expert's analysis, Google raises arguments about the benefits of one type
 2 of statistical model over another. But these arguments are irrelevant to the issue of whether "new
 3 material facts" exist that warrant leave for reconsideration and should be set aside by the Court.
 4 Google's Mot. at 4-6. As the Court has already found, the Court need not resolve "a battle of the
 5 experts" at the certification stage. *See Order at 22 (Aug. 1, 2018) (Dkt. #337)* ("Although Google's
 6 expert Dr. Johnson refutes Dr. Neumark's analysis in his own report, Google appears to concede that
 7 the dispute is a battle of the experts that the Court need not resolve at the certification stage."). Dr.
 8 Neumark [REDACTED]

9 [REDACTED] through a host of
 10 analyses, Neumark July Rpt. ¶ 41 (Dkt. #355-4), and Dr. Johnson's criticism of one aspect of Dr.
 11 Neumark's report does not constitute a "new material fact" warranting reconsideration. Google and
 12 Dr. Johnson were free to conduct any analysis, using any model, at any time but, rather than submit
 13 any affirmative report, Google chose instead to await Dr. Neumark's merits report in July and then
 14 merely criticize it in rebuttal.¹

15 Google also argues that scores for two of six dimensions of Googleyness [REDACTED]
 16 [REDACTED] do not show a statistically significant disparity. Google's Mot.
 17 at 6; Ong Decl. ¶ 13 (Dkt. #250) (listing six dimensions of Googleyness). But the lack of statistical
 18 significance on these two dimensions does not undermine Plaintiffs' argument that one prong of
 19 Google's discriminatory scheme is to require interviewers to consider and evaluate "Googleyness,"
 20 as Google offers no evidence about overall Googleyness scores, and Dr. Neumark found that older
 21 applicants [REDACTED], even after [REDACTED]. Moreover, as Dr.
 22 Neumark noted in his July report, Google's gHire data contained only [REDACTED] Googleyness ratings for
 23 "[REDACTED]" and less than [REDACTED] Googleyness ratings for "[REDACTED]." Neumark
 24 July Rpt. Tbl. 1 (Dkt. #355-4). Over [REDACTED] of the applicants who were invited to interview on-site at
 25 Google had missing Googleyness scores in the gHire data. *Id.*; Hr'g Tr. 11:12-17 (July 12, 2018)
 26

27 ¹ Indeed, if Google was confident that the statistics would support the notion that Google does not
 28 discriminate against older applicants in hiring, it would have performed its own affirmative analysis
 of the data. But Google chose not to do so, and its silence speaks volumes.

1 (Dkt. #304) (only 30% of interviewers evaluated Plaintiffs on Googleyness). Given the limited
 2 sample size and high volume of missing data for this dimension, Dr. Neumark did not incorporate
 3 the two Googleyness dimensions into his analysis. Neumark July Rpt. ¶ 16 (Dkt. #355-4). Instead,
 4 Dr. Neumark incorporated the five most-populated dimensions in his July analysis, and found that
 5 [REDACTED]

6 [REDACTED].” *Id.* ¶ 16, Tbl. 1 (emphasis in original). Plaintiffs cannot be
 7 faulted for limitations with Google’s own applicant data.

8 Moreover, Dr. Neumark’s finding is consistent with Plaintiffs’ theory (and the evidence) that
 9 multiple aspects of Google’s hiring process operate in concert to harm older applicants. *See* Pls.’
 10 Decert. Opp’n at 3 (Dkt. #258). As the Court noted in denying decertification, “Plaintiffs premise
 11 their disparate treatment theory on Google’s overarching ‘umbrella’ hiring policy that encompasses
 12 at least five different components that combine to intentionally discriminate against older workers.”
 13 Order at 19 (Aug 1, 2018) (Dkt. #337). Accordingly, the fact that the data Google provided was
 14 inadequate to perform certain analyses is immaterial to the Court’s certification decision, and does
 15 not constitute a “new material fact.” And the Court has already considered and rejected the argument
 16 that certification was inappropriate because not every Plaintiff received a negative Googleyness
 17 score. *See id.* at 18-19 (discussing competing evidence on Googleyness and fact that “Fillekes herself
 18 [REDACTED]”).

19 **C. The Court Properly Considered All Material Facts and Dispositive Legal
 20 Arguments At Issue in Denying Google’s Motion to Decertify Collective Action.**

21 Google cannot satisfy the requirements of Local Rule 7-9(b)-(c), as each purportedly “new”
 22 material fact or dispositive legal argument raised by Google in its motion has already been explicitly
 23 considered and rejected by the Court. *See* Google’s Mot. at 7-10. Local Rule 7-9 prohibits a party
 24 seeking leave to file a motion for reconsideration from repeating “any oral or written argument made
 25 by the applying party in support of … the interlocutory order which the party now seeks to have
 26 reconsidered.” L.R. 7-9(c) (noting further that “Any party who violates this restriction shall be
 27 subject to appropriate sanctions.”).

28 In denying Google’s motion for decertification, the court considered Plaintiffs’ “substantial
 29 evidence” supporting the fact that Plaintiffs had been subject to the same discriminatory hiring

1 practice by Google. *See* Order at 18 (Aug. 1, 2018) (Dkt. #337) (citing Compilation Exhibits C, D,
 2 E, F). In its order, the Court specifically noted that Plaintiffs are not proceeding on five separate
 3 theories of age discrimination, but rather an overarching hiring policy encompassing “at least five
 4 different components,” and thus, “even if the record shows that some Plaintiffs were ensnared by
 5 different filters than others, there is substantial evidence that Plaintiffs’ experiences were similar
 6 because they were all subject to the same allegedly discriminatory scheme.” *Id.* at 19. While Google
 7 argues that Plaintiffs’ evidence was lacking and that each Plaintiff was subject to varying aspects of
 8 this discriminatory practice, Google’s Mot. at 7-8, these arguments have already been properly
 9 considered by the Court. *See id.* at 18-19 (analyzing argument “that Plaintiffs disavow experiencing
 10 at least one or more of Plaintiffs’ five allegedly discriminatory practices” and holding “Google’s
 11 entire argument on the first *Leuthold* factor is flawed”). Because Google now requests that the Court
 12 reconsider the same facts and legal arguments already presented on decertification, its motion for
 13 leave should be denied. *Heredia*, 2018 U.S. Dist. LEXIS 40314, at *12-13 (denying motion for leave
 14 when legal arguments were “explicitly considered” in court’s order); *Williams v. Gyrus ACMI, LP*,
 15 No. 14-cv-00805-BLF, 2017 U.S. Dist. LEXIS 2953, at *4 (N.D. Cal. Jan. 6, 2017) (issues raised in
 16 prior motion or at hearing “are ... not grounds for granting leave to file a motion for
 17 reconsideration.”)

18 Similarly, the issue of whether there is an overarching “umbrella” hiring policy at Google
 19 that discriminates against older applicants was discussed at length both during the July 12, 2018
 20 hearing and in the Court’s decertification order. Google’s Mot. at 8-9. During the hearing, the Court
 21 cautioned Google that the issue of whether Plaintiffs’ theory of age discrimination “had its genesis
 22 in intentional age discrimination or was otherwise intended to discriminate” was an issue more
 23 appropriate for summary judgment. Hr’g Tr. 21:18-22:6 (July 12, 2018) (Dkt. #304) (“Why isn’t that
 24 a summary judgment issue? ... Why are[] you mixing summary judgment here with
 25 decertification?”). Similarly, the Court noted in its order that “[w]hether these five factors allegedly
 26 embedded in Google’s hiring process were actually discriminatory and whether Google utilized them
 27 as its ‘standard operating procedure’ are merits questions that are not before the Court at
 28 decertification.” Order at 20 (Aug. 1, 2018) (Dkt. #337). While Google argues that Plaintiffs failed

1 to present any evidence of Google’s discriminatory scheme, this is incorrect. The Court carefully
 2 considered Plaintiffs’ “substantial evidence of a common hiring plan … affecting all of them” and
 3 found that this evidence was sufficient to satisfy the first *Leuthold* factor. *Id.* at 18-20 (citing
 4 Compilation Exhibits C, D, E, F). The Court also noted that proof of an actual policy was not required
 5 at the decertification stage. *Id.* at 20. Because Google seeks to simply revisit issues and facts already
 6 considered by the court, Google’s motion for leave should be denied. *See Lenk v. Monolithic Power*
 7 Sys., No. 16-cv-02625-BLF, 2018 U.S. Dist. LEXIS 28970, at *5 (N.D. Cal. Feb. 21, 2018) (holding
 8 repetition of prior arguments “does not warrant leave to file a motion for reconsideration, and
 9 actually violates the Local Rule’s prohibition against repeating previous arguments”).

10 Moreover, Google’s argument that the Court committed a legal error in finding Plaintiffs to
 11 be similarly situated is unconvincing. Google’s Mot. at 9-10; *see also Leuthold v. Destination Am.*,
 12 224 F.R.D. 462, 466 (N.D. Cal. 2004) (“Determining whether a collective action is appropriate is
 13 within the discretion of the district court.”). In its analysis, the Court utilized the “commonly adopted
 14 *Leuthold* factors” which required Plaintiffs to “put forth substantial evidence” to show that they were
 15 similarly situated. *See Order at 5, 12 (Aug. 1, 2018) (Dkt. #337); id. at 20 (“The Court’s inquiry at*
 16 *decertification is limited to whether Plaintiffs have shown they are similarly situated”). Plaintiffs met
 17 this burden through the presentation of overwhelming statistical, documentary, and anecdotal
 18 evidence. *See id.* at 6-9, 18 (discussing evidence). The Court’s finding that Plaintiffs were similarly
 19 situated was not predicated on first finding a pattern-or-practice of discrimination as Google argues,
 20 but was based solely on the strength of Plaintiffs’ evidence. *See id.* at 18 (discussing Plaintiffs’
 21 “substantial evidence”); *id.* at 21 (holding “Plaintiffs’ common statistical evidence supports a finding
 22 that they are similarly situated”); *id.* at 29 (“Plaintiffs have carried their burden to present substantial
 23 evidence demonstrating that the collective action members are similarly situated.”). Because this
 24 legal issue was properly considered and decided by the Court, and there was no “manifest failure”
 25 by the Court to consider the issue, the requested leave must be denied. *See Utterkar v. Ebix, Inc.*, No.
 26 14-CV-022050-LHK, 2015 U.S. Dist. LEXIS 152839, at *12 (N.D. Cal. Nov. 11, 2015) (denying
 27 reconsideration under L.R. 7-9(b)(3) when party “ha[d] not shown that the Court disregarded a
 28 dispositive legal argument”).*

Further, the Court’s consideration of Plaintiffs’ statistical evidence at the decertification stage was not improper as Google suggests, as statistical evidence demonstrating that older applicants, such as Plaintiffs, were hired by Google at [REDACTED] is relevant to a showing that Plaintiffs are similarly situated. Order at 21 (Aug. 1, 2018) (Dkt. #337) (“the Court finds that the statistics support Plaintiffs’ assertion that they were similarly subject to Google’s overarching hiring practices that favored younger workers”). The fact that Google “simply disagrees with the Court’s interpretation of the evidence ..., but does not point to any failure to consider facts or legal argument that were previously presented” is insufficient to justify the requested leave. *Ulin v. Lovell’s Antique*, No. C-09-03160 EDL, 2011 U.S. Dist. LEXIS 64928, at *9, 14 (N.D. Cal. June 15, 2011) (denying leave when “Plaintiff does not point to any facts that were not considered or show that any dispositive legal argument was ignored”).

Finally, Google’s contends that the Court “failed to consider” the “dispositive legal arguments which were presented to the Court” regarding the presentation of evidence in Phase I related to the validity of Google’s technical interview questions. Google’s Mot. 7, 10. But the Court expressly considered the argument, and found that this defense will not require individualized proof during Phase I. Order at 24, 25 (Aug. 1, 2018) (Dkt. #337).

17 Google represents that the Court’s order “disallows proof of Google’s hiring process and
18 criteria at Phase One.” Google’s Mot. at 10. But this is a mischaracterization of the Court’s holding.
19 Order at 26 (Aug. 1, 2018) (Dkt. #337) (precluding Google from offering “individualized defenses
20 that are only applicable at phase two [and that] would improperly deprive Plaintiffs of the opportunity
21 to prevail at phase one in order to trigger the presumption of discrimination at phase two.”) (citing
22 *Thiessen v. GE Capital Corp.*, 267 F.3d 1095, 1107 (10th Cir. 2001)). During Phase I, Google may
23 still present common defenses that are “relevant to the liability inquiry.” *Id.* at 25, 26. Moreover, to
24 the extent that Google disagrees with the Court’s holding or its interpretation of facts, this is
25 insufficient to warrant leave for reconsideration. *Ulin*, 2011 U.S. Dist. LEXIS 64928, at *14.

III. CONCLUSION

27 For the foregoing reasons, Google’s motion for leave to seek reconsideration should be
28 denied.
